- It is prohibited to travel while wearing glasses; only sitting is allowed;
- It is prohibited to touch and interact with other objects on the screen of the exhibit which is not intended for interactive use.

Technology warnings #1:

- The manufacturer recommends that you visit your doctor before using the headset if you are pregnant or elderly, if you have binocular visual abnormalities or psychiatric problems, or if you have serious health problems such as heart disease.
- Some people (about 1 in 4,000) can experience flashes or patterns of light, severe dizziness, convulsions, twitching or fainting of eyes or muscles. This can happen by watching television, playing video games or experiencing virtual reality even if there have never been seizures or swooning before, or there have been no history of seizures or epilepsy. Such seizures are more common in people under the age of 20. Anyone experiencing any of these symptoms should stop using the headset and visit a doctor. Anyone who has had seizures, loss of consciousness or other epilepsy-related symptoms should visit a doctor before using the headset.
- Adults need to make sure that children under 18 are using headphones according to these health and safety warnings. An adult should also limit the time children use headphones and ensure they take breaks. Prolonged use should be avoided as this may affect hand-eye coordination, balance and multi-task capability. Adults should be monitored for impairment of these capabilities during and after use of the child;
- Remember that the objects you see in the virtual environment do not exist in the real world, so don't try to sit and stand on them or use them as support. Sit, unless the experience of your content requires you to stand;
- To avoid transmitting infectious conditions such as a plug-in, do not share headphones with people with contagious conditions, infections or diseases, especially concerning eye, skin or head skin. After each use, clean the headset with non-alcoholic bacterial napkins and clean the lenses with a dry microfiber cloth.
- Headphones touch your skin and head skin. If you notice swelling, itching, skin irritation, or other skin reactions, stop using the headset. If symptoms persist, contact your doctor.

Functionality:

- The exhibit may be used by one user at a time;
- The aim of the bench is to reflect the nature of hockey by allowing it to be put into hockey players shoes - by putting virtual reality glasses to choose among walking in field, attacking, guarding, goalkeeper, refereeing, leaving the field and understanding what the player of each position is doing on the field;

- The exhibit is connected virtual reality software and the user is operating according to the video;
- Image from virtual reality glasses also reflected on the TV screen;

SG-11 Heigh jump

Age limits:

- The exhibit is suitable for use by children of school age and adults;
- The safety of pre-school children is the responsibility of their parents or the accompanying person.

- Alert the staff of Vizium about defects or damages in the exhibit;
- The total weight of the users in the exhibit must not exceed 200 kg.

Visitors shall be prohibited from:

- It is prohibited to use the exhibit if it has not been serviced in accordance with the maintenance and warranty rules;
- It is prohibited to use the exhibit if it has any visual defects or malfunctioning of the software;
- It is prohibited to use the exhibit if it is turned off;
- The use of the exhibit shall be prohibited if there are any obstructions on it or near it which could harm the user, the exhibit or nearby visitors;
- The use of the exhibit shall be prohibited if there are people close to the exhibit who do not allow to fully use it, or if the use would result in harm to the user or visitors around them;
- It shall be prohibited to operate the exhibit if the temperature of the room falls below 15 degrees Celsius or is above 23 degrees Celsius;
- It shall be prohibited to operate the exhibit if the relative humidity of the room is less than 30% or more than 60%;
- It is prohibited to spray the exhibit with liquid or food. Components of the exhibit are not moisture-resistant;
- It is prohibited to open, dismantle or otherwise engage in the exhibit without the written consent of the manufacturer;
- It is prohibited to use more than 2 people at the same time;
- It is prohibited to step on the soft surface with footwear;
- It is prohibited to prevent another visitor from using the exhibit;
- It is prohibited to attack the exhibit, to kick it, break it or otherwise damage it, and to use it in a manner which does not comply with the instructions;
- It is prohibited to access and manipulate any computer, microcontrollers for other equipment software, including software updates, to configure or otherwise interfere without the written consent of the manufacturer;
- It is prohibited to access to internal components, wires and mechanisms of the exhibit;
- It is prohibited to step on painted elements of the exhibit;
- It is prohibited to touch displays and equipment not intended for the use of visitors;
- It is forbidden to look directly in the source of the projection beam.

Functionality:

- Before stepping on the soft floor, the visitor takes off and places his footwear on the shelf (at the entrance to the left and right);
- On the soft floor, a constellation of the universe, played in the loop, is displayed through a projector;
- There are 3 interactive zones under the soft floor, which are activated upon stepping on them;
- When of the zone is activated, this zones video of the universe constellation on the floor changes to one of the randomly selected videos on the subject of the universe;

- When the video ends, the video of the constellation of the universe is returning, which is being played in the loop.

VTGN-02 Drawing in virtual reality

Age limits:

- The exhibit is authorised for use by children aged 13 and adults;
- The safety of children is the responsibility of their parents or the accompanying person.

Warnings:

- The warning signs must be complied with;
- Alert the staff on Vizium for defects or damages detected in the exhibit.

Visitors shall be prohibited from:

- It is prohibited to use the exhibit if it has any visual defects or malfunctioning of the software;
- It is prohibited to use the exhibit if it is turned off;
- It is prohibited to use the exhibit when more than one user is present in the exhibit;
- The use of the exhibit shall be prohibited if there are any obstructions on it or near it which could harm the user, the exhibit or nearby visitors;
- The use of the exhibit shall be prohibited if there are people close to the exhibit who do not allow to fully use it, or if the use would result in harm to the user or visitors around them;
- It shall be prohibited to operate the exhibit if the temperature of the room falls below 15 degrees Celsius or is above 23 degrees Celsius;
- It shall be prohibited to operate the exhibit if the relative humidity of the room is less than 30% or more than 60%;
- It is prohibited to spray the exhibit with liquid or food. Components of the exhibit are not moisture-resistant;
- It is prohibited to use the exhibit if it has not been serviced in accordance with the maintenance and warranty rules;
- It is prohibited to use the exhibit if you have any of the following: fatigue, alcohol or drug effects, hangover, digestive problems, emotional stress or anxiety, illness such as flu, cold or ear pain. Otherwise, you may increase your susceptibility to symptoms.
- It is prohibited to open, dismantle or otherwise engage in the exhibit without the written consent of the manufacturer;
- It is prohibited to prevent another visitor from using the exhibit;
- It is prohibited to attack the exhibit, to kick it, break it or otherwise damage it, and to use it in a manner which does not comply with the instructions;
- It is prohibited to access and manipulate any computer, microcontrollers for other equipment software, including software updates, to configure or otherwise interfere without the written consent of the manufacturer;
- It is prohibited to access to internal components, wires and mechanisms of the exhibit;
- It is prohibited to step on painted elements of the exhibit;
- It is prohibited to touch displays and equipment not intended for the use of visitors;
- It is forbidden to use the exhibit if the child is less than 140 cm tall;
- It is prohibited to tear or break the spectacle wire;
- It is prohibited to tie the cord;
- It is prohibited to wrap the cord around parts of the body;
- It is prohibited to throw spectacles against the wall or floor or other visitors or the TV screen;
- It is prohibited to hang in spectacles;
- It is prohibited to touch the lens of glasses with fingers, hands or other objects;
- It is prohibited to bend, pull, move or break spectacle headphones;
- It is prohibited to remove, open, pull or break of the head attachment of glasses;
- It is prohibited to turn around your axis with glasses in your hands or on your head;
- It is prohibited to run and jump with glasses on your head; only standing is allowed;
- It is prohibited to throw, beat, break or otherwise harm virtual reality consoles in your hands;

- It is prohibited to use virtual reality glasses without putting a seat belt around your hand;
- It is prohibited to use the exhibit without the presence of the supervising personnel;
- It is forbidden to look directly at the source of the projection beam.

Technology warnings #1:

- The manufacturer recommends that you visit your doctor before using the headset if you are pregnant or elderly, if you have binocular visual abnormalities or psychiatric problems, or if you have serious health problems such as heart disease.
- Some people (about 1 in 4,000) can experience flashes or patterns of light, severe dizziness, convulsions, twitching or fainting of eyes or muscles. This can happen by watching television, playing video games or experiencing virtual reality even if there have never been seizures or swooning before, or there have been no history of seizures or epilepsy. Such seizures are more common in people under the age of 20. Anyone experiencing any of these symptoms should stop using the headset and go to a doctor. Anyone who has had seizures, loss of consciousness or other epilepsy-related symptoms should visit a doctor before using the headset.
- Adults need to make sure that children under 18 are using headphones according to these health and safety warnings. An adult should also limit the time children use headphones and ensure they take breaks. Prolonged use should be avoided as this may affect hand-eye coordination, balance and multi-task capability. Adults should be monitored for impairment of these capabilities during and after use of the child;
- Remember that the objects you see in the virtual environment do not exist in the real world, so don't try to sit and stand on them or use them to support. Sit, unless the experience of your content requires you to stand;
- To avoid transferring contagious conditions, such as pinkeye, donot share the head set with people who have contagious conditions, infections, or diseases, particularly of the eyes, skin, or scalp. After each use, clean the headset with nonalcoholic bacterial wipes and clean the lenses with a dry microfiber cloth.
- Headphones are parked next to your skin and head skin. If you notice swelling, itching, skin irritation, or other skin reactions, stop using the headset. If symptoms persist, contact your doctor.

Functionality:

- the exhibit may be used by 1 user at the same time;
- Visitor wears virtual reality glasses and controllers after hearing the employee's invitation and instructions;
- After wearing virtual reality glasses, the visitor chooses the language using controllers;
- When the language is selected, the game begins;
- During the game, a visitor can draw in virtual reality with a variety of brushes and colors.

VTGN-03 Laser maze

Age limits:

- The exhibit is suitable for use by children of school age and adults;
- The safety of pre-school children is the responsibility of their parents or the accompanying person.
- Warnings:
- The visitor is obliged to make sure that the exhibit is used in accordance with the instructions for use - if the instructions cannot be found, such information shall be provided by the staff of Vizium;
- The exhibit uses laser beam technologies;
- Alert the staff on Vizium for defects or damages detected in the exhibit.

Visitors shall be prohibited from:

- It is prohibited to use the exhibit if it has any visual defects or malfunctioning of the software;

- It is prohibited to use the exhibit if it is turned off;
- The use of the exhibit shall be prohibited if there are any obstructions in the exhibit or close to it which could harm the user, the exhibit or nearby visitors;
- The use of the exhibit shall be prohibited if there are people close to the exhibit who do not allow to fully use it, or if the use would result in harm to the user or visitors around them;
- It shall be prohibited to operate the exhibit if the temperature of the room falls below 15 degrees Celsius or is above 23 degrees Celsius;
- It shall be prohibited to operate the exhibit if the relative humidity of the room is less than 30% or more than 60%;
- It is prohibited to spray the exhibit with liquid or food. Components of the exhibit are not moisture-resistant;
- The use of the exhibit shall be prohibited if it has not been serviced in accordance with the maintenance and warranty rules;
- It is prohibited to open, dismantle or otherwise engage in the exhibit without the written consent of the manufacturer;
- It is prohibited to prevent another visitor from using the exhibit;
- It is prohibited to have more than one user in the exhibit;
- It is prohibited to access and manipulate any computer, microcontrollers for other equipment software, including software updates, to configure or otherwise interfere without the written consent of the manufacturer;
- It is prohibited to use the exhibit if the visitor is under the influence of alcohol, drugs or other substances;
- It is prohibited to look directly at a laser beam;
- It is prohibited to touch laser beams;
- It is prohibited for one visitor to stay in the exhibit for more than 5 minutes without leaving it;
- It is prohibited to bring food and drink into the exhibit;
- It is prohibited to place fingers in machines;
- It is prohibited to use a touch-sensitive screen with a sharp and abrasive object.

Functionality:

- The exhibit may be used by 1 visitor at the same time;
- The exhibit is activated by selecting the language on the touch-sensitive screen.
- The visitor meets the instructions of the exhibit and chooses the level of labyrinth difficulty;
- When the level of difficulty is selected, the visitor is invited to enter the tunnel where the “Start” button must be pressed;
- After the “Start” button is pressed, the selected level lasers are switched on and the time countdown timer starts.
- If a laser beam is broken, it is listed;
- If the time is over, the game ends;
- If the “Stop” button is pressed at the end of the labyrinth, the time and number of listed laser beam breaks are displayed on a touch screen for 30 seconds;
- When the game is in progress, visitors outside the tunnel have the opportunity to follow the action.

VTGN-04 Projection tunnel

Age limits:

- The exhibit is suitable for use by children of school age and adults;
- The safety of pre-school children is the responsibility of their parents or the accompanying person.

Warnings:

- The warning signs must be complied with;
- Alert the staff on Vizium for defects or damages detected in the exhibit.

Visitors shall be prohibited from:

- It is prohibited to use the exhibit if it has not been serviced in accordance with the maintenance and warranty rules;
- It is prohibited to use the exhibit if it is turned off;
- The use of the exhibit shall be prohibited if there are any obstructions in the exhibit or close to it which could harm the user, the exhibit or nearby visitors;
- The use of the exhibit shall be prohibited if there are people close to the exhibit who do not allow to fully use it, or if the use would result in harm to the user or visitors around them;
- It shall be prohibited to operate the exhibit if the temperature of the room falls below 15 degrees Celsius or is above 23 degrees Celsius;
- It is prohibited to operate the exhibit if the relative humidity of the room is below 30% or above 60%.
- It is prohibited to spray the exhibit with liquid or food. Components of the exhibit are not moisture-resistant;
- It is prohibited to open, dismantle or otherwise engage in the exhibit without the written consent of the manufacturer;
- It is prohibited to use the exhibit if the visitor is under the influence of alcohol, drugs or other substances;
- It is prohibited to prevent another visitor from using the exhibit;
- It is prohibited to access and manipulate any computer, projectors, microcontrollers for other equipment software, including software updates, configure or otherwise interfere without the written consent of the manufacturer;
- It is prohibited to look directly at the source of the projection beam;
- It is prohibited to use a touch-sensitive screen with a sharp and abrasive object.
- **Functionality:**
- The visitor may choose where they want to go before entering the tunnel (there are multiple options available);
- When you choose, images appear on the tunnel walls with the help of projectors. Entering the tunnel, the visitor sees the chosen environment, he has the opportunity to go through and see how it looks there, getting a sense of true visit to the chosen environment.

VTGN-05 Interactive projection floor

Age limits:

- The exhibit is suitable for use by children of school age and adults;
- The safety of pre-school children is the responsibility of their parents or the accompanying person.

Warnings:

- The warning signs must be complied with;
- The visitor is obliged to make sure that the exhibit is used in accordance with the instructions for use - if the instructions cannot be found, such information shall be provided by the staff of Vizium;
- Alert the staff of Vizium about defects or damages in the exhibit;
- Visitors should keep distance, to not interfere with other visitors who use the exhibit;
- due to technical constraints, the exhibit may work poorly if the visitor wears black clothes;
- If two users are in the game, be careful not to run or harm each other.

Visitors are prohibited:

- It is prohibited to use the exhibit if it has not been serviced in accordance with the maintenance and warranty rules;
- It is prohibited to use the exhibit if it has any visual defects or malfunctioning of the software;
- It is prohibited to use the exhibit if it is turned off;

- The use of the exhibit shall be prohibited if there are any obstructions in the exhibit or close to it which could harm the user, the exhibit or nearby visitors;
- The use of the exhibit shall be prohibited if there are people close to the exhibit who do not allow to fully use it, or if the use would result in harm to the user or visitors around them;
- It shall be prohibited to operate the exhibit if the temperature of the room falls below 15 degrees Celsius or is above 23 degrees Celsius;
- It shall be prohibited to operate the exhibit if the relative humidity of the room is less than 30% or more than 60%;
- It is prohibited to spray the exhibit with liquid or food. Components of the exhibit are not moisture-resistant;
- It is prohibited to use the exhibit if it has not been serviced in accordance with the maintenance and warranty rules;
- It is prohibited to open, dismantle or otherwise engage in the exhibit without the written consent of the manufacturer;
- It is prohibited to prevent another visitor from using the exhibit;
- It is prohibited to attack the exhibit, to kick it, break it or otherwise damage it, and to use it in a manner which does not comply with the instructions;
- It is prohibited not to watch the activities or games of the simulator;
- It is prohibited to access and manipulate any computer, microcontrollers for other equipment software, including software updates, to configure or otherwise interfere without the written consent of the manufacturer;
- It is prohibited to use the exhibit for more than two users; each user must be on his or her side of the area;
- It is prohibited to use the exhibit if the visitor is under the influence of alcohol, drugs or other substances;
- It is forbidden to look directly at the source of the projection beam.

Functionality:

- the exhibit may be used by up to 2 visitors at the same time;
- Technology embedded in the exhibit reads the visitor's body and a specially designed computer software detects it;
- The exhibit is activated when the visitor enters the playground and chooses the language;
- After introducing the instructions, the visitor selects the number of players;
- When the game starts, different elements of the game begin to appear on the field. 3 level elements appear in the game, each level element on the area is timed and gives a certain amount of points;
- The visitor's task is to cover the elements that appear with the whole body;
- If the visitor has successfully done so, the corresponding number of points will be added;
- When 2 players are selected, the playground is split vertically;
- When the game ends, the result is displayed;
- After displaying the results, the game returns to home screen.

VTGN-06 Home thermography

Age limits:

- The exhibit is suitable for use by children of school age and adults;
- The safety of pre-school children is the responsibility of their parents or the accompanying person.

Warnings:

- The warning signs must be complied with;
- Alert the staff of Vizium about defects or damages in the exhibit;
- The visitor is obliged to make sure that the exhibit is used in accordance with the instructions for use - if the instructions cannot be found, such information shall be provided by the staff of Vizium.

Visitors shall be prohibited from:

- It is prohibited to use the exhibit if it has any visual defects or malfunctioning of the software;
- It is prohibited to use the exhibit if it is turned off;
- The use of the exhibit shall be prohibited if there are any obstructions in the exhibit or close to it which could harm the user, the exhibit or nearby visitors;
- The use of the exhibit shall be prohibited if there are people close to the exhibit who do not allow to fully use it, or if the use would result in harm to the user or visitors around them;
- It shall be prohibited to operate the exhibit if the temperature of the room falls below 15 degrees Celsius or is above 23 degrees Celsius;
- It shall be prohibited to operate the exhibit if the relative humidity of the room is less than 30% or more than 60%;
- It is prohibited to spray the exhibit with liquid or food. Components of the exhibit are not moisture-resistant;
- It is prohibited to use the exhibit if it has not been serviced in accordance with the maintenance and warranty rules;
- It is prohibited to open, dismantle or otherwise engage in the exhibit without the written consent of the manufacturer;
- It is prohibited to prevent another visitor from using the exhibit;
- It is prohibited to attack the exhibit, to kick it, break it or otherwise damage it, and to use it in a manner which does not comply with the instructions;
- It is prohibited not to watch the activities or games of the simulator;
- It is prohibited to access and manipulate any computer, microcontrollers for other equipment software, including software updates, to configure or otherwise interfere without the written consent of the manufacturer;
- It is prohibited to use the exhibit by more than one user;
- It is prohibited to use the exhibit if the visitor is under the influence of alcohol, drugs or other substances;
- It is prohibited to touch or move the building model itself;
- It is prohibited to touch or move a thermograph;
- It is prohibited to place or dispose of any kind of liquid on the rotating platform;
- It is prohibited to touch and interact with other objects on the exhibit screen which is not intended for interactive use;
- It is prohibited to use a touch-sensitive screen with a sharp and abrasive object.

Functionality:

- The exhibit may be used by 2 visitors at the same time;
- The purpose of the exhibit is to explore building model with thermograph, explore how the building loses heat - which are the places in the buildings where the heat is lost most;
- The model of the building is placed on a rotating platform allowing it to be moved by the handle in relation to the thermograph;
- The exhibit is activated by selecting language from the touch-sensitive screen.
- When changing the position of building model against the thermograph, the screen shows the live view along with additional details of the in-depth information on the particular building model wall;
- It is possible to remove the building model from the rotating platform in the presence of an employee and to replace it with another own building model;
- When placing a different building model, the employee must enter a "PIN" code on a touch-sensitive screen that changes the thermograph's in-depth interest information to general thermograph information on the screen.

VTGN-07 Accelerated video

Age limits:

- the exhibit suitable for use in both school-age children and adults.

Warnings:

- The warning signs must be complied with;
- Alert the staff of Vizium about defects or damages in the exhibit;
- Visitors should keep distance, to not interfere with other visitors who use the exhibit;
- The visitor is obliged to make sure that the exhibit is used in accordance with the instructions for use - if the instructions cannot be found, such information shall be provided by the staff of Vizium.

Visitors shall be prohibited from:

- It is prohibited to use the exhibit if it has any visual defects or malfunctioning of the software;
- It is prohibited to use the exhibit if it is turned off;
- The use of the exhibit shall be prohibited if there are any obstructions in the exhibit or close to it which could harm the user, the exhibit or nearby visitors;
- The use of the exhibit shall be prohibited if there are people close to the exhibit who do not allow to fully use it, or if the use would result in harm to the user or visitors around them;
- It shall be prohibited to operate the exhibit if the temperature of the room falls below 15 degrees Celsius or is above 23 degrees Celsius;
- It shall be prohibited to operate the exhibit if the relative humidity of the room is less than 30% or more than 60%;
- It is prohibited to spray the exhibit with liquid or food. Components of the exhibit are not moisture-resistant;
- It is prohibited to use the exhibit if it has not been serviced in accordance with the maintenance and warranty rules;
- It is prohibited to open, dismantle or otherwise engage in the exhibit without the written consent of the manufacturer;
- It is prohibited to prevent another visitor from using the exhibit;
- It is prohibited to attack the exhibit, to kick it, break it or otherwise damage it, and to use it in a manner which does not comply with the instructions;
- It is prohibited not to watch the activities or games of the simulator;
- It is prohibited to access and manipulate any computer, microcontrollers for other equipment software, including software updates, to configure or otherwise interfere without the written consent of the manufacturer;
- It is prohibited to use the exhibit by more than one user;
- It is prohibited to use the exhibit if the visitor is under the influence of alcohol, drugs or other substances;
- It is prohibited to move the control button with excessive force or unexpected directions;
- It is prohibited to beat, tear, cast or otherwise break the control button of the exhibit;
- It is prohibited to lean against the control button;
- It is prohibited to touch displays and equipment not intended for the use of visitors;
- It is prohibited to touch and interact with other objects on the screen of the exhibit which is not intended for interactive use.

Functionality:

- The informative video screen where different processes can be seen in a slow motion or accelerated speed;
- The exhibit is activated by turning or pressing a control button, selecting the language;
- The exhibit screen displays a video menu of available accelerated and slow-motion videos;
- When the video is selected, it is played back at the original video speed.
- By turning of the control button, the user can accelerate or slow down the video.
- Without actively using the exhibit for 30 seconds, it returns to the home screen.

VTGN-08 Clear the pixels!

Age limits:

- The exhibit is suitable for use by children of school age and adults;

- The safety of pre-school children is the responsibility of their parents or the accompanying person.

Warnings:

- The warning signs must be complied with;
- Alert the staff of Vizium about defects or damages in the exhibit;
- The user should be careful not to harm other neighbouring visitors by moving his hands;
- The visitor is obliged to make sure that the exhibit is used in accordance with the instructions for use - if the instructions cannot be found, such information shall be provided by the staff of Vizium.

Visitors shall be prohibited from:

- It is prohibited to use the exhibit if it has any visual defects or malfunctioning of the software;
- It is prohibited to use the exhibit if it is turned off;
- The use of the exhibit shall be prohibited if there are any obstructions in the exhibit or close to it which could harm the user, the exhibit or nearby visitors;
- The use of the exhibit shall be prohibited if there are people close to the exhibit who do not allow to fully use it, or if the use would result in harm to the user or visitors around them;
- It shall be prohibited to operate the exhibit if the temperature of the room falls below 15 degrees Celsius or is above 23 degrees Celsius;
- It shall be prohibited to operate the exhibit if the relative humidity of the room is less than 30% or more than 60%;
- It is prohibited to spray the exhibit with liquid or food. Components of the exhibit are not moisture-resistant;
- It is prohibited to use the exhibit if it has not been serviced in accordance with the maintenance and warranty rules;
- It is prohibited to open, dismantle or otherwise engage in the exhibit without the written consent of the manufacturer;
- It is prohibited to prevent another visitor from using the exhibit;
- It is prohibited to attack the exhibit, to kick it, break it or otherwise damage it, and to use it in a manner which does not comply with the instructions;
- It is prohibited not to watch the activities or games of the simulator;
- It is prohibited to access and manipulate any computer, micro-controllers for other equipment software, including updates
- software, configure or otherwise intervene without the written consent of the manufacturer;
- It is prohibited to use the exhibit by more than one user;
- It is prohibited to use the exhibit if the visitor is under the influence of alcohol, drugs or other substances;
- It is prohibited to beat, cast or otherwise damage the exhibit;
- It is prohibited to touch the sensor with any kind of object or body parts;
- It is prohibited to touch and interact with other objects on the screen of the exhibit which is not intended for interactive use.

Functionality:

- Technology embedded in the exhibit reads the visitor's body and a specially designed computer program detects it;
- The exhibit is activated when the visitor stands in front of the sensor and waves with hands;
- When the sensor notices the human hands, they start to work and clean pixels from the screen;
- The screen displays a picture with of colored pixels. Clearing the pixels reveals an image of a Ventspils tourism object and its name in three languages at the bottom;
- The visitor's task is to clean all pixels as quickly as possible with hand movements;
- In the corner of the display, there is a countdown timer. If the visitor fails to clean all pixels in the specified time, the game ends and returns to the home screen and can be started again.
- The game starts when the first pixel is cleared;

- Without anyone actively using the exhibit, it returns to home screen - the picture is fully covered with pixels.

VTGN-09 Control a computer game with your body!

Age limits:

- The exhibit is suitable for use by children of school age and adults;
- The safety of pre-school children is the responsibility of their parents or the accompanying person.

Warnings:

- The warning signs must be complied with;
- Alert the staff of Vizium about defects or damages in the exhibit;
- The visitor is obliged to make sure that the exhibit is used in accordance with the instructions for use - if the instructions cannot be found, such information shall be provided by the staff of Vizium.

Visitors shall be prohibited from:

- It is prohibited to use the exhibit if it has any visual defects or malfunctioning of the software;
- It is prohibited to use the exhibit if it is turned off;
- It is prohibited to use the exhibit if there are any obstructions in or around the exhibit which could harm the user, the exhibit or nearby visitors;
- It is prohibited to use the exhibit if there are people close to the exhibit who do not allow to fully use it, or if the use would result in harm to user or visitors around the user;
- It shall be prohibited to operate the exhibit if the temperature of the room falls below 15 degrees Celsius or is above 23 degrees Celsius;
- It shall be prohibited to operate the exhibit if the relative humidity of the room is less than 30% or more than 60%;
- It is prohibited to spray the exhibit with liquid or food. Components of the exhibit are not moisture-resistant;
- It is prohibited to use the exhibit if it has not been serviced in accordance with the maintenance and warranty rules;
- It is prohibited to open, dismantle or otherwise engage in the exhibit without the written consent of the manufacturer;
- It is prohibited to prevent another visitor from using the exhibit;
- It is prohibited to attack the exhibit, to kick it, break it or otherwise damage it, and to use it in a manner which does not comply with the instructions;
- It is prohibited not to watch the activities or games of the simulator;
- It is prohibited to access and manipulate any computer, microcontrollers for other equipment software, including software updates, to configure or otherwise interfere without the written consent of the manufacturer;
- It is prohibited to use the exhibit by more than one user;
- It is prohibited to use the exhibit if the visitor is under the influence of alcohol, drugs or other substances;
- It is prohibited to beat, cast or otherwise damage the exhibit;
- It is prohibited to touch the sensor with any kind of object or body parts;
- It is prohibited to look at a laser beam;
- It is forbidden to look directly at the source of the projection beam.
- Functionality:
- User can control game by moving body using. This is provided by technology embedded in the exhibit;
- The exhibit is activated when the visitor stands in front of the sensor, chooses the language by using hand movements;
- When the visitor is familiar with instructions, the game starts;

- The game controlled by moving visitor's body, imitating running movements with hands, the image moves forward more quickly, jump move makes the image jump over the obstacle, duck move makes the image slipping under the obstacle and stepping to the right or left makes the image move correspondingly;
- The aim of the game is to collect as many blue elements as possible along the route at the given time;
- One blue element gives you one point;
- At the end of the game, the result is displayed;
- After the result is displayed, the game returns to the home screen;
- Without actively using the exhibit for 30 seconds, it returns to the home screen.

VTGN-10 Aruco markers

Age limits:

- The exhibit is suitable for use by children of school age and adults;
- The safety of pre-school children is the responsibility of their parents or the accompanying person.

Warnings:

- The warning signs must be complied with;
- Rotate the exhibit using the handle intended for it;
- Alert the staff of Vizium about defects or damages in the exhibit;
- The visitor is obliged to make sure that the exhibit is used in accordance with the instructions for use - if the instructions cannot be found, such information shall be provided by the staff of Vizium.

Visitors shall be prohibited from:

- It is prohibited to use the exhibit if it has any visual defects or malfunctioning of the software;
- It is prohibited to use the exhibit if it is turned off;
- The use of the exhibit shall be prohibited if there are any obstructions in the exhibit or close to it which could harm the user, the exhibit or nearby visitors;
- The use of the exhibit shall be prohibited if there are people close to the exhibit who do not allow to fully use it, or if the use would result in harm to the user or visitors around them;
- It shall be prohibited to operate the exhibit if the temperature of the room falls below 15 degrees Celsius or is above 23 degrees Celsius;
- It shall be prohibited to operate the exhibit if the relative humidity of the room is less than 30% or more than 60%;
- It is prohibited to spray the exhibit with liquid or food. Components of the exhibit are not moisture-resistant;
- It is prohibited to use the exhibit if it has not been serviced in accordance with the maintenance and warranty rules;
- It is prohibited to open, dismantle or otherwise engage in the exhibit without the written consent of the manufacturer;
- It is prohibited to prevent another visitor from using the exhibit;
- It is prohibited to attack the exhibit, to kick it, break it or otherwise damage it, and to use it in a manner which does not comply with the instructions;
- It is prohibited not to watch the activities or games of the simulator;
- It is prohibited to access and manipulate any computer, microcontrollers for other equipment software, including software updates, to configure or otherwise interfere without the written consent of the manufacturer;
- It is prohibited to use the exhibit by more than one user;
- It is prohibited to use the exhibit if the visitor is under the influence of alcohol, drugs or other substances;
- It is prohibited to beat, cast or otherwise damage the exhibit;
- It is prohibited to touch displays and equipment not intended for the use of visitors;

- It is prohibited to access to internal components, wires and mechanisms of the exhibit;
- It is prohibited to touch, cover or move the camera;
- It is prohibited to touch and interact with other objects on the screen of the exhibit which is not intended for interactive use.

Functionality:

- the exhibit may be used by one user at a time;
- The camera shows a live view from the camera and displays it on the TV screen.
- A cube containing the Aruco code on each side is placed on a rotating platform;
- The camera recognizes each Aruco code on the cube and displays 3D digital elements on the physical location of its real plane.
- When you turn the cube, the 3D digital elements are rotating with the cube on the TV screen.

FMG-01 Prime nombre hockey

Age limits:

- The exhibit is suitable for use by children of school age and adults;
- The safety of pre-school children is the responsibility of their parents or the accompanying person.

Warnings:

- The warning signs must be complied with;
- Alert the staff of Vizium about defects or damages in the exhibit;
- The visitor is obliged to make sure that the exhibit is used in accordance with the instructions for use - if the instructions cannot be found, such information shall be provided by the staff of Vizium.

Visitors shall be prohibited from:

- It is prohibited to use the exhibit if it has any visual defects or malfunctioning of the software;
- It is prohibited to use the exhibit if it is turned off;
- It is prohibited to use the exhibit if there are any obstructions in or around the exhibit which could harm the user, the exhibit or nearby visitors;
- The use of the exhibit shall be prohibited if there are people close to the exhibit who do not allow to fully use it, or if the use would result in harm to the user or visitors around them;
- It shall be prohibited to operate the exhibit if the temperature of the room falls below 15 degrees Celsius or is above 23 degrees Celsius;
- It shall be prohibited to operate the exhibit if the relative humidity of the room is less than 30% or more than 60%;
- It is prohibited to spray the exhibit with liquid or food. Components of the exhibit are not moisture-resistant;
- It is prohibited to use the exhibit if it has not been serviced in accordance with the maintenance and warranty rules;
- It is prohibited to open, dismantle or otherwise engage in the exhibit without the written consent of the manufacturer;
- It is prohibited to prevent another visitor from using the exhibit;
- It is prohibited not to watch the activities or games of the simulator;
- It is prohibited to access and manipulate any computer, microcontrollers for other equipment software, including software updates, to configure or otherwise interfere without the written consent of the manufacturer;
- It is prohibited to use the exhibit by more than one user;
- It is prohibited to use the exhibit if the visitor is under the influence of alcohol, drugs or other substances;
- It is prohibited to beat, cast or otherwise damage the exhibit;
- It is forbidden to step on the exhibit.
- It is forbidden to sit on the exhibit.
- It is prohibited to throw, beat, break, press, beat or damage the exhibit in any other way;
- It is prohibited to place alien objects on the exhibit;
- It is prohibited to use a touch-sensitive screen with a sharp and abrasive object.

Functionality:

- the exhibit may be used by one user at the same time;
- Software attempts to hit numbers in the player's gate. Numbers that are pre-figures should be allowed to enter the gates, while those who are not pre-figures must be hit;
- By beating a number, it breaks down into smaller ones and tries again to fly into the player's gate;

- A time and result is displayed on the screen. The speed of game is increasing as the time passes;
- The game ends when the time ends;
- At the end of the game, both the result of the player is displayed on the screen and a short information about the pre-figures - which is pre-figure with what it differs from the other numbers, how to recognize the pre-figure;
- With no active use of the game for 15 seconds, it returns to the home screen;
- The time and results of game are displayed on the screen;
- After the game, there is an option to restart the game.

FMG-03 Air flow cannon

Age limits:

- The exhibit is suitable for use by children of school age and adults;
- The safety of pre-school children is the responsibility of their parents or the accompanying person.

Warnings:

- The warning signs must be complied with;
- Alert the staff on Vizium for defects or damages detected in the exhibit.

Visitors shall be prohibited from:

- It is prohibited to step on the exhibit;
- It is forbidden to sit on the exhibit;
- It is prohibited to throw, beat, break, press, beat or damage the exhibit in any other way;
- It is prohibited to place alien objects on the exhibit;
- It is prohibited to aim at other people;
- It is prohibited to place objects or liquids in the cannon;
- It is forbidden to block the barrel and disrupt the air flow.

Functionality:

- The exhibit can be used by five users at the same time: four at guns (two holding the ball in its original position and two shooting), and one at an informative stand;
- The task of the users of the exhibit is to aim the air cannon in a specified direction, with the air pressure generated to "shoot" the ball, and thus push it through the barriers.

FMG-04 Magnetic sculpture

Age limits:

- The exhibit is suitable for use by children of school age and adults;
- The safety of pre-school children is the responsibility of their parents or the accompanying person.

Warnings:

- The warning signs must be complied with;
- Alert the staff of Vizium about defects or damages in the exhibit;
- Elements containing magnets are used in the exhibit;
- There is a risk of ingestion;
- Do not place your smart device on a magnet of the exhibit or in close proximity to it;
- Use only items placed on the table for making sculptures;
- Do not place any body parts between items.

Visitors shall be prohibited from:

- It is prohibited to step on the exhibit;
- It is forbidden to sit on the exhibit;
- It is prohibited to throw, beat, break, press, beat or damage the exhibit in any other way;
- It is prohibited to place alien objects on the exhibit;

- The removal of components from the exhibit is prohibited;
- It is prohibited to use the exhibit by visitors who have metal implants or are at risk of a magnet affecting health.

Functionality:

- the exhibit may be used by one or two users at the same time;
- A user of the exhibit, when it comes to the exhibit, can form a variety of sculptures from nuts that, thanks to a powerful magnet, have become magnetic objects and swell with each other.

FMG-05 Quick ball

Age limits:

- The exhibit is suitable for use by children of school age and adults;
- The safety of pre-school children is the responsibility of their parents or the accompanying person.

Warnings:

- The warning signs must be complied with;
- Alert the staff on Vizium for defects or damages detected in the exhibit.

Visitors shall be prohibited from:

- It is prohibited to step on the exhibit;
- It is forbidden to sit on the exhibit;
- It is prohibited to throw, beat, break, press, beat or damage the exhibit in any other way;
- It is prohibited to place alien objects on the exhibit;
- It is forbidden to remove its components or elements from the exhibit.

Functionality:

- the exhibit may be used by one to two users at the same time;
- The user of the exhibit takes balls and places them at the beginning of the track;
- Users can run one or two balls at a time, thereby measuring which ball at the destination gets faster and which one later.

FMG-06 Pirouette recipe

Age limits:

- The exhibit is suitable for use by children of school age and adults;
- The safety of pre-school children is the responsibility of their parents or the accompanying person.

Warnings:

- The warning signs must be complied with;
- Alert the staff on Vizium for defects or damages detected in the exhibit.

Visitors shall be prohibited from:

- It is prohibited to step on the exhibit;
- It is forbidden to sit on the exhibit;
- It is prohibited to throw, beat, break, press, beat or damage the exhibit in any other way;
- It is prohibited to place alien objects on the exhibit;
- It is forbidden to remove its components or elements from the exhibit.

Functionality:

- the exhibit may be used by one to four users at the same time;
- The user of the exhibit shall take rolling objects with varying weight center, one on the outside, one on the centre;
- A user can run rolling objects one or both at a time, thus measuring which object arrives first at the destination and which one later.

FMG-07 Find the fastest racing car!

Age limits:

- The exhibit is suitable for use by children of school age and adults;
- The safety of pre-school children is the responsibility of their parents or the accompanying person.
- Warnings:
- The warning signs must be complied with;
- Alert the staff on Vizium for defects or damages detected in the exhibit.

Visitors shall be prohibited from:

- It is prohibited to step on the exhibit;
- It is forbidden to sit on the exhibit.
- It is prohibited to access to internal components, wires, and mechanisms of the exhibit.
- It is prohibited to throw, beat, break, press, beat or damage the exhibit in any other way;
- It is prohibited to place alien objects on the exhibit;
- It is forbidden to remove its components or elements from the exhibit.

Functionality:

- the exhibit may be used by one to four users at the same time;
- The visitor may choose his own racing car and then race along the route to compete with other visitors;
- There are different types of cars available, from which the visitor should choose the fastest;
- The chosen racing car is placed on a race track. When competitors are ready, the starting handle is turned and all cars go down the track at the same time;
- After the finish, the result is displayed.

FMG-08 Can you pick yourself up?

Age limits:

- The exhibit is suitable for use by children of school age and adults;
- The safety of pre-school children is the responsibility of their parents or the accompanying person.

Warnings:

- Visitors who do not use the exhibit directly are not advised to be closer than 1 m to the moving elements of the exhibit;
- Only one person can sit in the exhibit at the same time;
- It is required to buckle up prior to the use of the exhibit;
- The warning signs must be complied with;
- Alert the staff on Vizium for defects or damages detected in the exhibit.

Visitors shall be prohibited from:

- It is prohibited to stand on the exhibit platform at the time it is used;
- It is prohibited to touch moving elements by hand;
- It is prohibited to access to internal components, wires and mechanisms of the exhibit;
- It is prohibited to touch the moving elements of the exhibit;
- It is prohibited to be under the lifting seat, to hang on it;
- It is prohibited to put objects or body parts in rolling mechanisms;
- It is prohibited to lean against the exhibit at the time when it is used.

Functionality:

- the exhibit may be used by one user at the same time;
- The visitor must get into a chair, buckle up and try to raise himself;
- This is possible for the visitor because the chair is connected to the pulley mechanism;
- The pulley mechanism allows a safe landing in the start position by releasing the rope;

- An informative stand is also available on the exhibit, providing additional information on the pulley mechanisms.

FMG-09 Wind tunnel

Age limits:

- The exhibit is suitable for use by children of school age and adults;
- The safety of pre-school children is the responsibility of their parents or the accompanying person.

Warnings:

- The warning signs must be complied with;
- Alert the staff of Vizium about defects or damages in the exhibit;
- There is a risk of ingestion.

Visitors shall be prohibited from:

- It is prohibited to open the exhibit or underlying furniture;
- It is prohibited to access to internal components, wires and mechanisms of the exhibit;
- It is prohibited to step on the exhibit;
- It is forbidden to sit on the exhibit;
- It is prohibited to put alien objects in the wind tunnel.

Functionality:

- the exhibit may be used by one user at the same time;
- A small wind tunnel is available to the visitor, which starts blowing upon sensing visitor approach;
- The visitor may put the objects intended for it in the wind tunnel which are located at the exhibit;
- The visitor should make the selected object float in the wind tunnel as long as possible.

FMG-10 Sound frequencies

Age limits:

- The exhibit is suitable for use by children of school age and adults;
- The safety of pre-school children is the responsibility of their parents or the accompanying person.

Warnings:

- The warning signs must be complied with;
- Alert the staff on Vizium for defects or damages detected in the exhibit.

Visitors shall be prohibited from:

- It is prohibited to step on the exhibit;
- It is forbidden to sit on the exhibit;
- It is prohibited to throw, beat, break, press, beat or damage the exhibit in any other way;
- It is prohibited to spray the exhibit with liquid or food. Components of the exhibit are not moisture-resistant;;
- It is prohibited to place containers of liquid or other objects on the exhibit. Due to vibrations, fluids placed on the exhibit may damage electronic components;
- It is prohibited to move the control buttons with excessive force or in unexpected directions;
- It is forbidden to lean against the control buttons;
- It shall be prohibited to operate the exhibit if the relative humidity of the room is below 30% or above 60%.
- It is prohibited to use the exhibit by visitors who have excessive sensitivity to sound or have hearing disabilities.

Functionality:

- A visitor can choose from one of the wave contours of a three-tone generator. By changing the frequency and amplitude of the tone generator with rotating buttons, you can see how the vibrations change the geometric pattern of the sand drawing. There are five frequency band intervals among which you can choose.

FMG-11 Magnet and liquid

Age limits:

- The exhibit is suitable for use by children of school age and adults;
- The safety of pre-school children is the responsibility of their parents or the accompanying person.

Warnings:

- The warning signs must be complied with;
- Alert the staff of Vizium about defects or damages in the exhibit;
- The exhibit uses elements containing magnets.

Visitors shall be prohibited from:

- It is prohibited to step on the exhibit;
- It is forbidden to sit on the exhibit;
- It is prohibited to place alien objects on the exhibit;
- The removal of components or elements from the exhibit is prohibited;
- It is forbidden to throw, beat, break, push, beat or damage the exhibit in any other way.

Functionality:

- The exhibit may be used by up to six users at the same time;
- The exhibit contains containers with fluid metal (ferrofluid);
- The visitor can move the magnet and watch its impact on the liquid metal.

GPG-01 Geo-scope

Age limits:

- The exhibit is suitable for use by children of school age and adults;
- The safety of pre-school children is the responsibility of their parents or the accompanying person.

Warnings:

- The warning signs must be complied with;
- Alert the staff of Vizium about defects or damages in the exhibit;
- The visitor is obliged to make sure that the exhibit is used in accordance with the instructions for use - if the instructions cannot be found, such information shall be provided by the staff of Vizium.

Visitors shall be prohibited from:

- It is prohibited to use the exhibit if it has any visual defects or malfunctioning of the software;
- It is prohibited to use the exhibit if it is turned off;
- It is prohibited to use the exhibit if there are any obstructions in or around the exhibit which could harm the user, the exhibit or nearby visitors;
- It is prohibited to use the exhibit if there are people close to the exhibit who do not allow to fully use it, or if the use would result in harm to user or visitors around the user;
- It shall be prohibited to operate the exhibit if the temperature of the room falls below 15 degrees Celsius or is above 23 degrees Celsius;
- It shall be prohibited to operate the exhibit if the relative humidity of the room is less than 30% or more than 60%;
- It is prohibited to spray the exhibit with liquid or food. Components of the exhibit are not moisture-resistant;
- It is prohibited to use the exhibit if it has not been serviced in accordance with the maintenance and warranty rules;
- It is prohibited to open, dismantle or otherwise engage in the exhibit without the written consent of the manufacturer;
- It is prohibited to prevent another visitor from using the exhibit;
- It is prohibited to attack the exhibit, to kick it, break it or otherwise damage it, and to use it in a manner which does not comply with the instructions;
- It is prohibited not to watch the activities or games of the simulator;
- It is prohibited to access and manipulate any computer, microcontrollers for other equipment software, including software updates, to configure or otherwise interfere without the written consent of the manufacturer;
- It is prohibited to use the exhibit by more than one user;
- It is prohibited to use the exhibit if the visitor is under the influence of alcohol, drugs or other substances;
- It is prohibited to beat, cast or otherwise damage the exhibit;
- It is prohibited to sit on painted elements of the exhibit;
- It is prohibited to use a touch-sensitive screen with a sharp and abrasive object.

Functionality:

- The exhibit may be used at the same time by one user;
- The exhibit is activated by selecting the language on the touch-sensitive screen.
- In Home screen, the visitor can read instructions;
- To start the game, you must place the NFC theme disk in the marked location.
- After placing the disk in the marked location, the Earth picture is displayed on the screen with several active point according the theme on the disk.

- After pressing on one of the active points, detailed information is displayed based on the theme and selected place;
- The screen displays 16 topics about geography;
- Each topic is linked to one of the 16 NFC disks;
- With no active use of the game for 1 minute, it returns to the home screen.

GPG-03 Oak through history

Age limits:

- The exhibit is suitable for use by children of school age and adults;
- The safety of pre-school children is the responsibility of their parents or the accompanying person.

Warnings:

- The warning signs must be complied with;
- Alert the staff of Vizium about defects or damages in the exhibit;
- The visitor is obliged to make sure that the exhibit is used in accordance with the instructions for use - if the instructions cannot be found, such information shall be provided by the staff of Vizium.

Visitors shall be prohibited from:

- It is prohibited to use the exhibit if it has any visual defects or malfunctioning of the software;
- It is prohibited to use the exhibit if it is turned off;
- The use of the exhibit shall be prohibited if there are any obstructions in the exhibit or close to it which could harm the user, the exhibit or nearby visitors;
- The use of the exhibit shall be prohibited if there are people close to the exhibit who do not allow to fully use it, or if the use would result in harm to the user or visitors around them;
- It shall be prohibited to operate the exhibit if the temperature of the room falls below 15 degrees Celsius or is above 23 degrees Celsius;
- It shall be prohibited to operate the exhibit if the relative humidity of the room is less than 30% or more than 60%;
- It is prohibited to spray the exhibit with liquid or food. Components of the exhibit are not moisture-resistant;
- It is prohibited to use the exhibit if it has not been serviced in accordance with the maintenance and warranty rules;
- It is prohibited to open, dismantle or otherwise engage in the exhibit without the written consent of the manufacturer;
- It is prohibited to prevent another visitor from using the exhibit;
- It is prohibited to attack the exhibit, to kick it, break it or otherwise damage it, and to use it in a manner which does not comply with the instructions;
- It is prohibited not to watch the activities or games of the simulator;
- It is prohibited to access and manipulate any computer, microcontrollers for other equipment software, including software updates, to configure or otherwise interfere without the written consent of the manufacturer;
- It is prohibited to use the exhibit by more than one user;
- It is prohibited to use the exhibit if the visitor is under the influence of alcohol, drugs or other substances;
- It is prohibited to beat, cast or otherwise damage the exhibit;
- It is prohibited to throw or place any kind of item in a rail mechanism;
- It is prohibited to push, bend, tear, lock the mechanism of the moving track;
- It is prohibited to place any part of the body in the rail mechanism;
- It is prohibited to lean on the rail mechanism;
- It is prohibited to access to internal components, wires and mechanisms of the exhibit;
- It is prohibited to put any parts of body in rolling mechanisms;
- It is prohibited to use a touch-sensitive screen with a sharp and abrasive object.

Functionality:

- the exhibit may be used by one user at a time;
- The exhibit is activated by selecting the language on the touch-sensitive screen.
- The visitor moves the magnifying glass through oak rings, where the centre wooden ring symbolizes the oldest year and the outer ring is youngest;
- When a touch-sensitive screen recognizes elements on a tree, the World Map on the screen displays a variety of political events and a political map that changes as a result of these events;
- With no active use of the game for 1 minute, it returns to the home screen.

GPG-04 Get to know countries and languages around the world

Age limits:

- The exhibit is suitable for use by children of school age and adults;
- The safety of pre-school children is the responsibility of their parents or the accompanying person.

Warnings:

- The warning signs must be complied with;
- Alert the staff of Vizium about defects or damages in the exhibit;
- The visitor is obliged to make sure that the exhibit is used in accordance with the instructions for use - if the instructions cannot be found, such information shall be provided by the staff of Vizium.

Visitors shall be prohibited from:

- It is prohibited to use the exhibit if it has any visual defects or malfunctioning of the software;
- It is prohibited to use the exhibit if it is turned off;
- The use of the exhibit shall be prohibited if there are any obstructions in the exhibit or close to it which could harm the user, the exhibit or nearby visitors;
- The use of the exhibit shall be prohibited if there are people close to the exhibit who do not allow to fully use it, or if the use would result in harm to the user or visitors around them;
- It shall be prohibited to operate the exhibit if the temperature of the room falls below 15 degrees Celsius or is above 23 degrees Celsius;
- It shall be prohibited to operate the exhibit if the relative humidity of the room is less than 30% or more than 60%;
- It is prohibited to spray the exhibit with liquid or food. Components of the exhibit are not moisture-resistant;
- It is prohibited to use the exhibit if it has not been serviced in accordance with the maintenance and warranty rules;
- It is prohibited to open, dismantle or otherwise engage in the exhibit without the written consent of the manufacturer;
- It is prohibited to prevent another visitor from using the exhibit;
- It is prohibited to attack the exhibit, to kick it, break it or otherwise damage it, and to use it in a manner which does not comply with the instructions;
- It is prohibited not to watch the activities or games of the simulator;
- It is prohibited to access and manipulate any computer, microcontrollers for other equipment software, including software updates, to configure or otherwise interfere without the written consent of the manufacturer;
- It is prohibited to use one cart by more than one user at a time;
- It is prohibited to use the exhibit if the visitor is under the influence of alcohol, drugs or other substances;
- It is prohibited to beat, cast or otherwise damage the exhibit;
- It is prohibited to push, push the cart onto other visitor or cart;
- It is prohibited to place parts of the body in the wheels under the exhibit;
- It is prohibited to flip the cart;

- The use of mobile carts shall be prohibited while in charge mode and attached to the socket;
- It is prohibited to smear, cover or otherwise deform the QR codes on the ground;
- It is prohibited to use a touch-sensitive screen with a sharp and abrasive object.

Functionality:

- The exhibit may be used by 3 users at the same time;
- On the floor is a World map with QR codes on many countries;
- When driving the carts on codes, the camera and the software recognize them and offers additional information: the name of the country, the capital, the flag, the coat of arms, official languages, area, anthem (audio file), GDP per capita for a given year, and 3 interesting facts about the country.

GPG-05 Get to know the statistics of the world!

Age limits:

- The exhibit is suitable for use by children of school age and adults;
- The safety of pre-school children is the responsibility of their parents or the accompanying person.

Warnings:

- The warning signs must be complied with;
- Alert the staff of Vizium about defects or damages in the exhibit;
- The visitor is obliged to make sure that the exhibit is used in accordance with the instructions for use - if the instructions cannot be found, such information shall be provided by the staff of Vizium.

Visitors shall be prohibited from:

- It is prohibited to use the exhibit if it has any visual defects or malfunctioning of the software;
- It is prohibited to use the exhibit if it is turned off;

- It shall be prohibited to operate the exhibit if the relative humidity of the room is less than 30% or more than 60%;
- It is prohibited to spray the exhibit with liquid or food. Components of the exhibit are not moisture-resistant;
- It is prohibited to use the exhibit if it has not been serviced in accordance with the maintenance and warranty rules;
- It is prohibited to open, dismantle or otherwise engage in the exhibit without the written consent of the manufacturer;
- It is prohibited to prevent another visitor from using the exhibit;
- It is prohibited to attack the exhibit, to kick it, break it or otherwise damage it, and to use it in a manner which does not comply with the instructions;
- It is prohibited not to watch the activities or games of the simulator;
- It is prohibited to access and manipulate any computer, microcontrollers for other equipment software, including software updates, to configure or otherwise interfere without the written consent of the manufacturer;
- It is prohibited to use the exhibit by more than one user;
- It is prohibited to use the exhibit if the visitor is under the influence of alcohol, drugs or other substances;
- It is prohibited to beat, cast or otherwise damage the exhibit;
- It is prohibited to sit on painted elements of the exhibit;
- It is prohibited to use a touch-sensitive screen with a sharp and abrasive object.

Functionality:

- The exhibit may be used by one visitor at the same time;
- The exhibit is activated by selecting language on the touch-sensitive screen.
- The visitor must answer 10 questions by selecting one of the four answers to each question;
- The software, when analyzing the legislation of countries around the world, determines which one country would be the most suitable country for the particular visitor according to replies;
- After answering the visitor may read a more information about the legislative, traditional and cultural characteristics of each particular country;
- Without actively using the exhibit for 30 seconds, it returns to the home screen.

GPG-07 Traditional costumes from around the world

Age limits:

- The exhibit is suitable for use by children of school age and adults;
- The safety of pre-school children is the responsibility of their parents or the accompanying person.

Warnings:

- The warning signs must be complied with;
- Alert the staff of Vizium about defects or damages in the exhibit;
- The visitor is obliged to make sure that the exhibit is used in accordance with the instructions for use - if the instructions cannot be found, such information shall be provided by the staff of Vizium.

Visitors shall be prohibited from:

- It is prohibited to use the exhibit if it has any visual defects or malfunctioning of the software;
- It is prohibited to use the exhibit if it is turned off;
- The use of the exhibit shall be prohibited if there are any obstructions in the exhibit or close to it which could harm the user, the exhibit or nearby visitors;
- The use of the exhibit shall be prohibited if there are people close to the exhibit who do not allow to fully use it, or if the use would result in harm to the user or visitors around them;
- It shall be prohibited to operate the exhibit if the temperature of the room falls below 15 degrees Celsius or is above 23 degrees Celsius;
- It shall be prohibited to operate the exhibit if the relative humidity of the room is less than 30% or more than 60%;
- It is prohibited to spray the exhibit with liquid or food. Components of the exhibit are not moisture-resistant;
- It is prohibited to use the exhibit if it has not been serviced in accordance with the maintenance and warranty rules;
- It is prohibited to open, dismantle or otherwise engage in the exhibit without the written consent of the manufacturer;
- It is prohibited to prevent another visitor from using the exhibit;
- It is prohibited to attack the exhibit, to kick it, break it or otherwise damage it, and to use it in a manner which does not comply with the instructions;
- It is prohibited not to watch the activities or games of the simulator;
- It is prohibited to access and manipulate any computer, microcontrollers for other equipment software, including software updates, to configure or otherwise interfere without the written consent of the manufacturer;
- It is prohibited to use the exhibit by more than one user;
- It is prohibited to use the exhibit if the visitor is under the influence of alcohol, drugs or other substances;
- It is prohibited to beat, cast or otherwise damage the exhibit;
- It is prohibited to touch or cover a sensor with any kind of object or body parts;

- It is prohibited to touch and interact with other objects on the screen of the exhibit which is not intended for interactive use;
- It is prohibited to use a touch-sensitive screen with a sharp and abrasive object.

Functionality:

- Exhibit 1 may be used by 3 users at the same time;
- The exhibit is activated by selecting language on the touch-sensitive screen.
- The touch screen contains a list of 70 countries;
- After pressing on one of the countries, the name of the country and the picture of the woman and/or man dressed in traditional or national attire appear on the screen;
- In addition, there is information about the costume, its meaning, history and use in a given country today, and the country-specific audio file is being played;
- Without actively using the exhibit for 1 minute, it returns to the home screen.
- Exhibit 2 may be used by 1 user at the same time;
- The exhibit is activated by selecting language on the touch-sensitive screen.
- The visitor is offered the choice of one of the 10 women's or 10 men's national outfits;

Technology warnings #1:

- The manufacturer recommends that you visit your doctor before using the headset if you are pregnant or elderly, if you have binocular vision abnormalities or psychiatric problems, or if you have serious health problems such as heart disease.
- Some people (about 1 in 4,000) can experience flashes or patterns of light, severe dizziness, convulsions, twitching or fainting of eyes or muscles. This can happen by watching television, playing video games or experiencing virtual reality even if there have never been seizures or swooning before, or there have been no history of seizures or epilepsy. Such seizures are more common in people under the age of 20. Anyone experiencing any of these symptoms should stop using the headset and go to a doctor. Anyone who has had seizures, loss of consciousness or other epilepsy-related symptoms should visit a doctor before using the headset.
- Adults need to make sure that children under 18 are using headphones according to these health and safety warnings. An adult should also limit the time children use headphones and

ensure they take breaks. Prolonged use should be avoided as this may affect hand-eye coordination, balance and multi-task capability. Adults should be monitored for impairment of these capabilities during and after use of the child;

- Remember that the objects you see in the virtual environment do not exist in the real world, so don't try to sit and stand on them or use them to support. Sit, unless the experience of your content requires you to stand;
- To avoid transferring contagious conditions, such as pinkeye, do not share the head set with people who have contagious conditions, infections, or diseases, particularly of the eyes, skin, or scalp. After each use, clean the headset with nonalcoholic bacterial wipes and clean the lenses with a dry microfiber cloth.
- Headphones are placed next to your skin and head skin. If you notice swelling, itching, skin irritation, or other skin reactions, stop using the headset. If symptoms persist, contact your doctor.

Functionality:

- The exhibit may be used by 6 users at the same time;
- Visitors are given places and instructions how to wear glasses, how to buckle up and how to act in problem situations;
- The exhibit is activated by the supervising person;
- After activating the exhibit, the instructions are displayed;
- After listening to the instruction, the supervising person shall choose and activate one of the 3 trips;

Technology warnings #1:

- The manufacturer recommends that you visit your doctor before using the headset if you are pregnant or elderly, if you have binocular visual abnormalities or psychiatric problems, or if you have serious health problems such as heart disease.
- Some people (about 1 in 4,000) can experience flashes or patterns of light, severe dizziness, convulsions, twitching or fainting of eyes or muscles. This can happen by watching television, playing video games or experiencing virtual reality even if there have never been seizures or swooning before, or there have been no history of seizures or epilepsy. Such seizures are more common in people under the age of 20. Anyone experiencing any of these symptoms should stop using the headset and go to a doctor. Anyone who has had seizures, loss of consciousness or other epilepsy-related symptoms should visit a doctor before using the headset.
- Adults need to make sure that children under 18 are using headphones according to these health and safety warnings. An adult should also limit the time children use headphones and ensure they take breaks. Prolonged use should be avoided as this may affect hand-eye coordination, balance and multi-task capability. Adults should be monitored for impairment of these capabilities during and after use of the child;
- Remember that the objects you see in the virtual environment do not exist in the real world, so don't try to sit and stand on them or use them to support. Sit, unless the experience of your content requires you to stand;
- To avoid transferring contagious conditions, such as pinkeye, do not share the head set with people who have contagious conditions, infections, or diseases, particularly of the eyes, skin, or scalp. After each use, clean the headset with nonalcoholic bacterial wipes and clean the lenses with a dry microfiber cloth.
- Headphones are parked next to your skin and head skin. If you notice swelling, itching, skin irritation, or other skin reactions, stop using the headset. If symptoms persist, contact your doctor.

Functionality:

- The exhibit may be used by 3 visitors at the same time;
- Visitors are given places and instructions how to act in problem situations, then glasses are drawn up to help to get into the exhibit;
- The supervising person issues special footwear, fasteners and helps to adjust each visitor individually;
- The exhibit is activated by the supervising person;
- The visitor will have the option of selecting one of the virtual reality experiences in the virtual environment by entering the chosen virtual portal/door, which will bring the visitor to the game environment;
- In a virtual labyrinth environment, visitors try to get out of the labyrinth within 3 minutes;
- In the maze, visitors can meet other users and compete on time;
- In a break-out environment, the visitor tries to resolve the riddle within 3 minutes;
- In a break-out environment, visitors don't meet each other and compete on time;
- At the end of the game or after the end of time countdown, the visitor must wait for instructions from the supervising person to get out of exhibit and remove the equipment;
